

Ordering multiple siRNAs is easy. Select your siRNAs online and email your custom plate of siRNA directly to the Cell Center for ordering.

## 1) Visit GeneGlobe to select your siRNAs

A direct link to this site is present on the [Cell Center web site](#)

Alternatively, this page can be reached by visiting [www.geneglobe.com](http://www.geneglobe.com), clicking on the "Multiple product search" tab and selecting "Enter search terms".

Search for siRNAs and add them to a plate [Help](#)

**Enter search terms**

For faster, more specific searches use **Entrez Gene IDs** or **RefSeq IDs** rather than gene symbols. You can search using:

- Entrez Gene IDs (e.g., 100)
- RefSeq IDs (e.g., NM\_000022)
- Gene symbols (e.g., ADA)
- Cat. No. (e.g., for siRNA: SI00000203, for Primer Assays: QT00000203)
- siRNA name (e.g., Hs\_ADA\_1) or Primer Assay name (e.g., Hs\_ADA\_SG\_1)

**Note:** If you are searching for siRNAs you can select below how many siRNAs per gene should be returned.

Separate entries with a space, comma, or semicolon.

Enter your search terms here. When entering multiple search terms, separate entries with a space, a comma or a semicolon

**Search options**

**Species:**  
Human (Homo sapiens)

**siRNA(s) per gene:**  
all

**siRNA type:**

- HP Validated siRNAs preferred (sequence not provided), when not available HP GenomeWide siRNAs
- HP GenomeWide siRNAs only (sequence provided)

Follow the instructions online and add your siRNAs to a plate.

2) Virtual Plate layout. Select the scale (0.1nmol, 0.25nmol or 1nmol) and array as you wish. Click and drag control siRNAs to your plate if you need them.

Once your plate is finalized, click the “Order plate(s)” button.

Note: the minimum number of siRNAs for an order is 36. You can save a plate with less than 36 siRNA, but you cannot place the order.

\*\*You will need to be a registered user of [www.qiagen.com](http://www.qiagen.com) to save or order plates\*\*  
Registration is easy. All we need is your name, email and phone#.
